To Whom It May Concern:

Lakemere 4-H Beef Club, Canine Project hired Adam from 780 Kennels to help us with basic dog training. At the time we had nine members aged 9 – 17 and their various dogs. One of our dogs displayed behaviour problems and our untrained but experienced leaders saw that we needed some help.

Adam came strongly recommended from one of our parents. He was punctual, easy to talk to, excellent with the members, motivated and it was obvious right away that his skilled training methods were going to make a difference.

Adam came to our facility for a total of 8 hours (4 two hour sessions) and used his expert techniques to work with our members and their dogs. He especially concentrated on a difficult dog and was invaluable in training both the dog and his handler.

Adam challenged the members with their own dogs as well as having them handle each other's dogs. He understood the different ages, breeds, sizes and various needs of all of the dogs, as well as the fact that the members were all children.

We liked Adam so much that we asked him to be our Judge for our Canine Achievement Day for our club. We would definitely use Adam again.
